We automatically receive and record information from your web browser when you interact with the Services, including your IP address and cookie information. This information is used for fighting spam/malware and also to facilitate collection of data concerning your interaction with the Services (e.g., what links you have clicked on). We may collect

3.8. Email, Text, and Push Notification Communications.

We may communicate with you via email, SMS, MMS or other text message ("Text Message") or push notifications (to the extent you permit us to do so), and we may collect information regarding such communications, such as confirmation when you open an email, read a Text Message or receive a push notification. We use this information to improve our Services, including without limitation our customer service.

3.9. Information Collected Using Cookies.

Cookies are pieces of text that may be provided to your computer through your web browser when you access a website. Your browser stores cookies in a manner associated with each website you visit. We use cookies to enable our servers to recognize your web browser and tell us how and when you visit the Site and otherwise use the Services. Our cookies do not, by themselves, contain Personal Information, and we do not combine the general information collected through cookies with other Personal Information to tell us who you are. As noted, however, we do use cookies to identify that your web browser has accessed aspects of the Services and may associate that information with your Account if you have one. Most browsers have an option for turning off the cookie feature, which will prevent your browser from accepting new cookies, as well as (depending on the sophistication of your browser software) allowing you to decide on acceptance of each new cookie in a variety of ways. We strongly recommend that you leave cookies active, because they enable you to take advantage of the most attractive features of the Services. This Privacy Policy covers our use of cookies only and does not cover the use of cookies by third parties. We do not control when or how third parties place cookies on your computer. For example, third party websites to which a link points may set cookies on your computer.

3.10. Information Related to Advertising and the Use of Web Beacons.

To support and improve the Services, we may serve advertisements, and also allow third parties advertisements, through the Services. These advertisements are sometimes targeted and served to particular users and may come from third party companies called "ad networks." Ad networks include third party ad servers, ad agencies, ad technology vendors and research firms. Advertisements served through the Services may be targeted to users who fit a certain general profile category and may be based on (i) anonymized information inferred from information provided to us by a user, including Personal Information (e.g., gender or age); (ii) Services usage

patterns or (iii) user activity on Third Party Services. We do not provide Personal Information to any ad networks for use outside of the Services. To increase the effectiveness of ad delivery, we may deliver a file (known as a “web beacon”) from an ad network to you through the Services. Web beacons allow ad networks to provide anonymized, aggregated auditing, research and reporting for us and for advertisers. Web beacons also enable ad networks to serve targeted advertisements to you when you visit other websites. Because your web browser must request these advertisements and web beacons from the ad network’s servers, these companies can view, edit or set their own cookies, just as if you had requested a web page from their site.

3.11. Aggregate Information.

We collect statistical information about how both unregistered and registered users, collectively, use the Services (“Aggregate Information”). Some of this information is derived from Personal Information. This statistical information is not Personal Information and cannot be tied back to you, your Account or your web browser.

4.11. Information Disclosed for Our Protection and the Protection of Others.

We also reserve the right to access, read, preserve, and disclose any information as we reasonably believe is necessary to (i) satisfy any applicable law, regulation, legal process or governmental request; (ii) enforce this Privacy Policy and our Terms of Service, including investigation of potential violations hereof; (iii) detect, prevent, or otherwise address fraud, security or technical issues; (iv) respond to user support requests or (v) protect our rights, property or safety, our users and the public. This includes exchanging information with other companies and organizations for fraud protection and spam/malware prevention.

4.12. Information We Share with Your Consent.

Except as set forth above, you will be notified when your Personal Information may be shared with third parties, and will be able to prevent the sharing of this information.

5. Information Security.
